

WOMEN ARE AT WORK
FOR GOD AND HOMEA NATIONAL CONVENTION OF
THE W. C. T. U.

Address of President Frances E. Willard and Reports of Officers—Populists and Prohibitionists Urged to Unite For their Country's Good—Other Addresses.

CLEVELAND, Ohio, Nov. 17.—Under the national banner, "For God and Home and Native Land," delegates representing every state in the union and a following of thousands of wearers of the white ribbon assembled in Music hall and opened the twenty-first annual convention of the Woman's Christian Temperance union yesterday.

MISS FRANCES E. WILLARD.

The feature of the day was of course the annual address, delivered by Miss Frances E. Willard, president of the union.

Miss Willard began her address with a review of the history of the organization, the progress of temperance and purity, and showed that they all have moved forward during the last twenty years by leaps and bounds until the habit of total abstinence is everywhere respected. The effect has been felt in numerous ways. The age of consent of parents has been raised in all English speaking countries till the average is now 16 years instead of 10. Forty years ago there were but seven vocations open to women, while to-day hardly that many are closed. The pope's representative in America has indorsed the right of bishops to exclude liquor dealers for communion. She rejoiced at Lady Henry Somerset's crusade and the defeat of Col. Breckinridge of Pollard fame and said "white life for two" can alone make the home happy. The appointment of matronly women on every police force was urged as a sure method of minimizing the degradation of the night side of life in the municipality.

"I have not turned populist," said Miss Willard, "though I hope that populist and prohibitionists may be agreed and walk together before long; I am a teetotaler and expect to be one always. I am opposed to lynching at any time and in any place, and whether the person lynched is black, brown or white, I believe his taking off to be a crime against nature and against God. It is my earnest desire and purpose to extend the work of organizing local Woman's Christian Temperance unions in the south."

It was maintained that the call for compulsory arbitration resulting from the Pullman strike, will, if it is but heeded, be worth to this country all that the strike cost financially and every other way. It is idle to talk of personal liberty. The day is long gone when that slogan could rally a corporal's guard among the intelligent and thoughtful. The trend of socialistic thought, which makes the good of the community the prime factor in government, has so far outranked the unbridled action of the individual that in England no one is allowed to build a wooden house, nor is such permission granted in this country within the fire limits of our great cities. In Germany, to cut down a tree is an offense against the state; permission must first be secured, because the value of trees as a whole is greater to the people than the interest of any one person in any one tree.

The annual report of Mrs. Helen M. Barker, treasurer, showed receipts: Dues, \$14,704.90; other contributions, \$11,414.26. Total, \$26,019.25. Disbursements, \$20,338.07. Balance in treasury, \$5,681.18. There are no outstanding bills.

A rising vote of thanks was tendered to Treasurer Helen M. Barker and her report was unanimously adopted. The report of the corresponding secretary stated that while nearly all churches, missionary and charitable society mourn a deficient in finance and the consequent crippling of their work the Woman's Christian Temperance union comes to its annual meeting with increased membership, every bill paid and a more comfortable balance in the treasury than any previous year has shown. The work in each state is detailed. The results in Kentucky are summed up in just five words—"Kentucky has defeated Col. Breckinridge."

Rev. Dr. Joseph Cook of Boston was next introduced and spoke briefly on the success of the last year and predicted that by the end of the twentieth century the liquor traffic would come to an end.

Short addresses followed by Mrs. N. Coe Stewart, representing the United Woman's society of Ohio and by Mrs. Dr. Blakeslee, who brought greetings from Canada.

Three delegates from the Catholic

Total Abstinence were then introduced and Mrs. Leonora Lake spoke briefly, expressing sympathy and co-operation with the movement.

In the evening the Music Hall was again crowded. Ten minute addresses of welcome were made by many prominent members of the order. The day's proceedings closed with music and the benediction.

THINK FOUR WERE MURDERED.

Discovery of Skeletons Revive a Story of an Elopement.

FRANCISCO, Ala., Nov. 17.—News has just reached here of the discovery of four human skeletons in a crevice on Cumberland mountain, near the head of Hurricane creek. The remains are believed to be those of Mrs. Sarah Bishop, her stepdaughter and two men with whom the women eloped last spring. At the time the enraged husband and father went in search for the fugitives. He remained absent awhile but finally returned and reported that his search had been fruitless. Since then nothing has been heard of them. Mr. Bishop has also left this part of the country.

WAS BURIED ALIVE.

Horrible Discovery Made on Opening a Grave at Alma, Mich.

GRAND LODGE, Mich., Nov. 17.—Elam Muscott, formerly a fruit tree agent, while on a trip to Alma a little over a year ago, was taken ill and died very suddenly. Being among strangers he was buried rather hastily. Recently it was decided to take up the body and removed it to Williamstown. When the coffin was opened the corpse was found turned over with the hands clutching the hair, handfuls of which had been torn out. The face was terribly lacerated and torn, showing the desperate struggle he had made to free himself from his tomb. It is thought that the supposed death was only a case of suspended animation.

He Forgot to be Brave in the Presence of Japanese at Ping Yang.

So far as reported no lives have been lost. The property damaged is estimated at \$1,000,000. Several hundred people have been made homeless.

In the meantime Folsom will be released on bail.

Preparing for a Strike.

UNIONTOWN, Pa., Nov. 17.—The talk of a strike in the coke region has not yet materialized, but President Davis of the miners in that district says the men are organizing and that the only way a strike can be averted is for the operators to advance the selling price of coke and at the same time advance the wages of the workmen.

FATAL SIMOON IN OKLAHOMA.

Great Sand Storm Swept Over the Territory Yesterday.

GUTHRIE, Okla., Nov. 17.—Reports are coming in of the four days' sirocco which has devastated Oklahoma. Nothing like it has ever been seen in the territory. It comes at the worst possible time. The storm has not only been furious in its gait, but it turned to a cold wave, and that with the sand made existence a burden. Stocks of dry goods and other merchandise have been literally covered in dust and sand and human beings all looked like red men. The hurricane or gale stopped at a late hour last evening. At midnight in many places when the wind shifted and swooped down from the north for five hours people were frightened nearly out of their wits. The mercury fell 30 degrees in a very short time and during the day a perfect blizzard blew from the north.

EL RENO, I. T., Nov. 17.—It is reported here a detachment of cavalry sent out from Fort Reno several days ago encountered the simoon and nothing has been heard of the troopers since. Col. Wade, in command of the post, does not think anything serious has occurred to his cavalry. Great suffering is reported from the interior, not only among the whites but among Indians.

HEROISM OF A YOUNG GIRL.

Many Lives Saved by 16-Year-Old Maud Schermerhorn.

WICHITA, Kan., Nov. 17.—The Patterson house, the leading hotel of Harper, was burned to the ground at 4 o'clock yesterday morning, and only through the heroism of Maud Schermerhorn, a dining room girl 16 years old, was appalling loss of life averted. She was asleep with another dining room girl when the alarm was given. Her companion fainted and Miss Schermerhorn dragged her from the building. Then she rushed upstairs, pounding on every door and sounding the alarm. The smoke was suffocating and finally became unbearable, and on her hands and knees she crawled through the rest of the house calling the slumbering guests, until finally she sank exhausted by the loss of blood and the pain of her burns at the door of the last room. Fortunately there was a man in the room at the door of which Maud Schermerhorn had swooned, and as he ran out he tripped over the insensible girl, and picking her up carried her to a place of safety. Fifteen minutes later the house was entirely enveloped in flames, and but for the bravery and presence of mind of the young heroine there would doubtless have been much loss of life.

Heavy Losses in Kentucky.

HOPKINSVILLE, Ky., Nov. 17.—The forests around Northville, a station east of this city, caught fire yesterday morning. A large force of men were at work all day fighting the flames and trying to suppress them, but as fast as they were extinguished in one place they would break out in another. The large tracts of timber in the northern portion of this county are reported on fire also, and there is little water convenient for use. The losses will be immense.

Fire Raging Near Vandalia, Ill.

VANDALIA, Ill., Nov. 17.—Fire is raging in the Okawa bottoms south and east of this city. Henry Maskes' residence was destroyed having caught from the fire that swept near the house.

Kansas Town Destroyed.

Foreign Consuls to Investigate.

LONDON, Nov. 17.—The chairman of the Armenian Patriotic association, G. Hagopian, has sent a letter received from an Armenian, whose name is not given because it would jeopardize his life, to the earl of Kimberley, the secretary of state for foreign affairs. The letter describes the massacre of Armenians by Kurds, which was lately reported, and gives the most revolting details of the scenes witnessed. Foreign consuls of the European powers are investigating the matter.

FIVE FIRES IN WINNIPEG.

Over \$200,000 Worth of Property Destroyed—Incendiarism Suspected.

WINNIPEG, Man., Nov. 17.—Winnipeg had a serious baptism of fire between midnight and 6 o'clock, no less than five alarms having been turned in for different fires. The Western Canada block, corner of Main street and Portage avenue, was destroyed, and the stores underneath, occupied by Wright Bros. & Mitchell, druggist, were burned out. Loss, \$85,000. The Grand Union hotel, on Princess street, was swept out of existence, in addition to several stores and houses adjoining. The fire then crossed the street and consumed the large warehouse of Merriek, Anderson & Co., which was filled with valuable stock. The loss in this connection will exceed \$125,000. This fire is supposed to have been started by incendiaries.

DEEP WATER FOR GALVESTON.

Jetty System Gives Evidence of Successful Development.

GALVESTON, Texas, Nov. 17.—The fruits of the Galveston jetty system, upon which millions of dollars have been expended, are beginning to ripen. A new channel was discovered across the bar yesterday, and last night thirteen ships, drawing from 14 to 15 feet 3 inches, passed to sea through it. There was 15 feet 6 inches in the channel, which is perfectly straight and free from lumps. The discovery of this channel confirms the correctness of the theories upon which the project is based, and it is the opinion of the experts that the ultimate success of the jetty in producing deep water for Galveston is assured.

National Grange in Good Shape.

SPRINGFIELD, Ill., Nov. 17.—The national grange executive committee submitted its annual report yesterday, which showed a healthy condition, ample membership, and a large amount of work done. The state grange concluded its session and adjourned. A resolution was adopted condemning the charges made at the Chicago stock yards as extortionate.

The various positions held by them during the battle will be marked and the battlefield prepared for a great national memorial park.

Tap a Gusher Near Rollersville.

FINDLAY, Ohio, Nov. 17.—J. W. Kirkbride & Brother of this city yesterday drilled in an 8,000-barrel oil well near Rollersville. It is so large all efforts to control it have failed and the oil is flooding the surrounding country. The same people last week struck a 3,000-barrel well on the same farm.

DUN NOTES IMPROVEMENT.

The Hopeful Feeling of Last Week Still Continues.

NEW YORK, Nov. 17.—R. G. Dun & Co.'s weekly review of trade says: "In nearly all branches of business gradual improvement appears, and the hopeful feeling observed last week continues. It will take time to lift business from its depression and the progress made, if less than the sanguine expected, is at least encouraging. The decision to offer \$50,000,000 bonds for replenishment of treasury reserve was by bankers generally approved. It is generally assumed that the bonds will be taken at once. The reported importation of gold from London with a loss on its face of \$7,500 at the present exchange rates is presumably meant to affect bond subscriptions. There have been already some withdrawals of gold from the treasury by redemption of notes to make payments for bonds, and goods rather than gold are likely to come from Europe.

"Resumption of work and increase of working time have been more conspicuous in the cotton industry than in others, but no increased demand for goods appears. For finished products of iron the demand is on the whole narrower. At the west there was a little improvement. Manufacturers of woollens have good orders for this time of the year, many still running mainly on such goods, but there is a general failure of supplemental orders for spring goods.

"Sales of wool are again smaller than last year. Speculative markets have been stimulated in part by the call for bonds and wheat has advanced one and a half cents, and corn one and a half cents, and cotton a sixteenth. Western wheat receipts in two weeks of November have been 7,871,671 bushels, against 12,166,830 last year, but Atlantic exports in two weeks have been only 1,029,355 bushels, against 1,770,643 last year, and they are not increased by the advance in price, which is partly due to accounts of extensive feeding to cattle. In October over half the exports were from the Pacific coast at less than 50 cents, so that the average for all exports was only 50.8 against 68.5 last year. Corn receipts have been less than half of last year's, with exports insignificant. The cotton movement continues large, but sales were made at only 3.56 cents for two days here, and at such prices profits are poor.

"The failures of the week have been 270 in the United States, against 232 last year, and 38 in Canada against 36 last year."

UNIQUE CASE TO BE TRIED.

Court Asked to Prevent Discharge by the Receivers of a Railroad.

OMAHA, Neb., Nov. 17.—Papers were prepared yesterday in a unique case to be filed in the Federal court, the object of which is to establish the principle that no employee connected with a railroad in the control of receivers can be discharged without good and sufficient reason. The case selected for the test is that in which George Miller, a Union Pacific clerk, was discharged for alleged trivial cause by the general yardmaster. Judge Dundy, in his recent conference with Union Pacific employees on the question of salary, intimated that to a reasonable degree they would be protected in the security of their positions and is believed to have laid down quite broadly the principle that civil service rules would appertain in a general way to their work.

Pushing T. V. Powderly for Office.

NEW ORLEANS, La., Nov. 17.—Mr. Powderly refused to talk yesterday concerning his plans. His friends are quietly working up a boom for him. There is much opposition to the Sovereign administration. The Knights of Labor held their usual session yesterday. The report of the special committee appointed at the last session to call a convention of the chiefs of the national labor organizations of the country in St. Louis in June of this year was read and referred. There was the usual public meeting at night. The motion to elect grand officers for two terms of two years each was defeated by a large majority.

Scare On a Warship.

NEW YORK, Nov. 17.—The warship Cincinnati found an obstruction yesterday about six miles east of Hell Gate not down on the charts. Considerable damage was done to the boat, but how much is not yet known. The Cincinnati limped back to the Brooklyn navy yard, where it will probably lie in dry dock two months. The Cincinnati is a new protected cruiser of about 3,000 tons. It has twin screws, is a sister ship of the Raleigh and was completed in the Brooklyn navy yards.

North Dakota Legislature.

GRAND FORKS, N. D., Nov. 17.—Legislative returns indicate that the next legislature, so far as reported, will be made up as follows: Senate—Republicans, 24; democrats, 4; populists, 3. House—Republicans, 50; democrats, 5; populists, 7. In the senate the republicans will have a majority of 24 over both democrats and populists, and in the house a majority of 50.

Amendment Is Defeated.

TOPEKA, Kan., Nov. 17.—Returns on the vote on the woman suffrage amendment to the constitution at the headquarters of the populist state central committee from all the counties in the state, with the exception of the five smaller ones, show a majority against the amendment of 31,175.

FITZ'S HOT PUNCH
KILLED RIORDAN

DEATH CAME TO THE LATTER THIS MORNING.

While They Were Giving a Sparring Exhibition at Syracuse Last Night Riordan Was Knocked Out and Died Without Regaining Consciousness—Fitzsimmons Weeps.

SYRACUSE, N. Y., Nov. 17.—[Special].—Cen Riordan, who was knocked out by Robert Fitzsimmons in their sparring exhibition, last night, died at 3:30 o'clock this morning and Fitzsimmons is in jail. Riordan was Fitzsimmons' traveling sparring companion and Fitzsimmons is crying in his cellover his death. He had no idea of injuring Riordan as it was simply an exhibition match.

JAPAN GAINS POINTS.

New Treaty Is Practically Ready for Ratification.

WASHINGTON, Nov. 17.—While the two subjects may not be directly connected, it is, nevertheless, a noteworthy fact the negotiations between the Japanese minister and the secretary of state for a new amity and commerce treaty between the two countries will be consummated by the time Japan makes its reply to the mediation question. Every essential difference between Secretary Gresham and Minister Kurino regarding the terms of the treaty has been agreed upon. It is only a matter now of detail, especially in regard to tariff rates. State and treasury department officials have been in consultation for several days past for the purpose of determining these rates, and it is understood an agreement has been reached which will be acceptable to the Japanese minister. The treaty will of course still require ratification by the United States senate and the Japanese congress, but with the exception of a few minor details the necessary work preliminary to ratification has been practically finished.

Ives Still in Front.

NEW YORK, Nov. 17.—The fifth of the six nights' play in the 3,600 point Schaefer-Ives match began with Ives 608 points in the lead. Some of the prettiest playing that has yet been done during the series was witnessed. The final score was: Ives, 3,000; Schaefer, 2,549. Schaefer gained 156 points on the night's play. The score by innings was:

Ives (2,400)—88, 111, 15, 0, 0, 125, 43, 13, 4, 0, 0, 64, 8, 121, 0, 4, 4—3,000.
Schaefer (1,793)—130, 116, 21, 2, 70, 5, 4, 121, 24, 1, 96, 57, 28, 84, 1, 0—2,549.
Averages—Ives, 33.3-17; Schaefer, 47 1/2.

Pick Their Men and Kill Them.

LULA, Miss., Nov. 17.—There was a pitched battle in the main business street of Lula yesterday as the result of which two men are dead. J. W. Boyd and his brother Bob stood in a doorway until they saw J. W. Harman and A. H. Lawrence approaching. Then the brothers, each armed with a shotgun, stepped forth and opened fire on the others. Each of the brothers had his man picked out, and at the first volley both of the men fell. The tragedy is the result of an old feud.

May Submit Prohibition Again.

HURON, S. D., Nov. 17.—There is general belief that the incoming legislature will pass a bill again submitting the prohibition question to a vote of the people, and, should another vote be taken, it will result in the repeal of the present prohibition law. The W. C. T. U. is the only organization in the state that can be relied upon to oppose resubmission, and this does not carry as much weight as it did two years ago.

Dr. McCosh Dead.

PRINCETON, N. J., Nov. 17.—The brilliant life of Dr. James McCosh, the venerable ex-president of Princeton university, came to its close last night as peacefully as the sun sets at evening. He had been in no great pain during his recent illness, increasing weakness being the only indication of approaching death. He was conscious until the afternoon. Funeral arrangements have not yet been announced.

Murderer Filled with Bullets.

MOBERLY, Mo., Nov. 17.—Reason Forbush, the notorious Howard county murderer, made a desperate effort to escape from the Huntsville jail yesterday. He was recaptured, after being filled with bullets. He was recaptured, after being filled with bullets. He was to have been hanged at Huntsville next week. He doubtless will die from his wounds.

Debs Case Set for Trial.

CHICAGO, Nov. 17.—The trial of Debs and the other officers of the American Railway Union, who are under indictment in the United States court, was set yesterday by Judge Grosscup for Jan. 8. The attorneys for the defense appeared in court and gave notice that they would file a motion to quash the indictment, and the court appointed Dec. 4 for the argument on the motion.

Next Legislature in Indiana.

INDIANAPOLIS, Ind., Nov. 17.—The latest returns show a large republican majority in both branches of the legislature. There will be thirty republican senators and twenty democrats. In the house there will be eighty-one republicans and eighteen democrats, giving a plurality on joint ballot of seventy-four votes.

GOOD TIMBER HERE FOR STATE OFFICERS

SEVERAL JANESVILLE MEN WHO MIGHT SERVE.

C. L. Valentine For Game Warden,
Dr. E. D. Roberts For State Veterinarian, Captain **Vankirk** For State Oil Inspector—Capt. **Glass** For Assistant Adjutant General.

Janesville has some good timber for Governor-Elect Upham to make a few appointments from. For instance, what a man in Wisconsin would make a better fish and game warden than C. L. Valentine? Mr. Valentine would make a most excellent officer and he has the backbone to prosecute every violator of the law, be he prince or pauper.

Then who in Wisconsin would make a better man for the office of state veterinarian than Dr. Evan D. Roberts? Dr. Roberts stands very high in his profession and would get the endorsement of a large majority of the veterinarians of the state. There isn't a better man to be had.

Could the governor-elect make a better selection for state oil inspector than Captain W. T. Vankirk? No man in Wisconsin is entitled to more than Captain Vankirk. To his labors as chairman of the county committee, a big slice of the large majorities are due. Captain Vankirk had charge of the county work and the county's plurality was the second largest in the state. This ought to operate in favor of all the Rock county men who want an office.

Captain C. F. Glass has been suggested to Governor-Elect Upham as a good man for assistant adjutant general and his appointment if made would please every militiaman in the state.

There are several candidates for minor positions. T. W. Goldin, it is said, would serve in a military position and what man in Wisconsin would be a better official of the national guard than Janesville's representative in the "Paster club" in the national guard.

Was in the Regular Army.

His service in the regular army would be valuable. He has smelled powder as well as he was with Custer on the Little Big Horn and carried orders from Custer to Major Reno, which fact accounts for his being alive yet.

It will all be settled, probably, before tonight as a meeting of the state officers-elect will be held at the Pfister at Milwaukee today and it is understood that a number of the principal appointments to be made will be practically settled.

The census of the state is to be taken again next year. The earnings of each census taker ranks from about \$300 down.

During the time the legislature is in session there are seventy-seven permanent positions in the assembly and fifty-three in the senate, exclusive, of course, of the members of these bodies. The salaries of these places range from \$800 down. The last legislature had about forty enrolling and engrossing clerks. These are worth two dollars a day upward, and several Janesville people would serve if appointed.

MRS. SMITH WAS ON A BIG TEAR

Whisky and Opium Made Her Wild, and She Was Locked Up.

Mrs. Smith, the notorious, was taken to jail last night, as she had combined whisky with opium until she was about ready to quit drinking for good. The fire patrol was called, and contrary to their general rule, they picked her up and took her to the bastille. Her husband was taken to the Waupaca Soldiers' home yesterday, and she was attempting to drown her sorrow by means of the flowing bowl and "hitting the pipe."

ICEMEN WILL FIGHT SEWER BUILDING.

G. C. FERRIS PROTESTED TO THE COUNTY BOARD.

Attorneys Have Been Consulted and the Intimation Is That the Matter Will Be Sifted—Can the City Stop the Work if It Becomes Necessary?

Janesville icemen are not going to sit calmly down and let the county sewage flow into the water that they want to sell, a little later on 'n the form of ice, if they can do anything to prevent it. Just what legal redress is at their command is hard to tell, but George C. Ferris of the Ferris Ice company, appeared before the county board the other day and told them what he thought. They have consulted an attorney and it is evident that they are not going to let the matter pass without the most vigorous opposition possible. The question will arise, if the sewage question has the effect that many predict, can the board of public health of the city of Janesville prevent Rock county from using Rock river as a sewer outlet while the city is using the same purpose? The question may soon become more serious than driving piles in Rock river, and one that may threaten the health of every family.

The Strength of an Arch.

The strength of a brick arch having a span of 13 feet 1 1/2 inches and a rise of 1 foot 11 1/2 inches was recently tested at Beaulieu, France, with a view to determine the suitability of such a construction for a service reservoir now being built there. The brick measured 11.8 by 5.1 by 1.2 inches, and were laid flat with a joint of cement mortar 0.4 inch thick between them and an 8.10-inch layer of mortar outside. A section two feet was built on rock abutments and loaded with 820 pounds per square foot, which load was carried without any signs of failure for eighteen hours.

To "Suffer and Be Strong."

In other words, to exhibit fortitude when enduring bodily pain is, of course, praiseworthy, but sufferers from rheumatism would undoubtedly forego the praise which the exercise of this Spartan virtue calls forth, to obtain prompt and easy relief. It is at their very threshold in the shape of Hostie's Stomach Bitters, which arrests this formidable disease at the outset, and acts as an efficient anodyne upon the afflicted nervous system. Take time by the forelock if you feel rheumatic twinges, and give them a quietude at once. Rheumatism is, reader, you may perhaps not be aware, liable to attack the heart. Many a man and woman with a heart thus attacked has promptly "shuffled off this mortal coil." The Bitter is also an excellent remedy for kidney trouble, malaria, constipation, debility, neuralgia, sleeplessness and dyspepsia.

How It Was.

Mr. Lenz (photographer)—I have not for a long time had so good a sitter as you are. The expression is exactly right. How do you gain such control over the facial muscles? Are you an actor?

Mr. Rhodtser—No, sir.
Mr. Lenz—Well, well! Perhaps you are a bicyclist?

Mr. Rhodtser—Yes, I am.
Mr. Lenz—Ah, that explains it! It comes from riding the machine on stone pavements and trying to look as if you enjoyed it.—Answers.

The Wrong Lead.

"If you please, mum," said Mr. Dismal Dawson, "I wish you would gimme something to eat. That there woman next door gimme a handout but on the dead the stuff wasn't fit."
"See here," was the answer he got, "that woman next door is my mother and if you aren't out of here in less than two minutes I'll set the dog on you. Now, you git."

Their Dreams.

Said he: "Wife, you're crowned with your beauty."
No one can dispute me in that."
Said she: "If you'd but do your duty I'd be crowned besides with a new hat."
And that night, when they both slept upon it, What visions their light slumbers fill! She had a sweet "dream of a bonnet" And he a bad dream of the bill.

A FREQUENT OUTING.

"My husband and I never have a discussion before the children. If I see a quarrel coming on, we always send them out."
"I thought I had seen them in the street very often."—Harper's Bazar.

Motherly Solitude.

The cannibal family gathered around the bountiful board.
"I understand," the father casually observed, "that this is the cadaver of a millionaire."

The mother started in sudden apprehension.
"Now, children," she exclaimed, "don't forget what I told you about overloading your stomachs with rich food."—Puck.

It is hard to personate and act a part long; for when truth is not at the bottom, nature will always be endeavoring to return and will pass out and betray herself at one time or another.

Ex-State Senator Cyrus Flaxtoben of Concord, N. H., has a huge kite, on which he sends up his household linen to dry on washday. It is suspended about a quarter of a mile from the ground.

A country couple, newly married, went to a restaurant the other day, and the groom called for some wine. When asked what kind, he replied: "We want that kind of wine where the cork busts out and the stuff begins to bile, and keeps on a b'lin' till you get the worth of your money."

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, confusion of the mind etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system as will be seen by the accompanying cut. The little white lines are the nerves which convey the nerve force from the nerve centers to every part of the body, just as the electric currents conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the parts affected.

Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement and his Restorative Nervine is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

Dr. Miles' Restorative Nervine is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. Restorative Nervine positively contains no opiates or dangerous drugs.

REPUBLICAN OPPORTUNITY.

The republican party has never seen the time in its history, when the possibilities were so great as at the present time. Its ranks have been materially strengthened by recruits from all political parties, including a liberal adjunct from democracy itself. The ranks of some of the lesser organizations are so badly demoralized that it will be difficult for them to rally and again gain national prominence. Among them are the prohibition and populist parties.

The most important factor, however, that contributed to republican victory was the southern contingency, that for the first time since the war cast in its lot with the party that has long been considered its most bitter enemy. This breaking away from party lines and old time prejudices is very significant, and is the result of something of a struggle.

Democracy finds a good deal of comfort in nursing the opinion that humanity is like a flock of sheep, and that tidal waves are of frequent occurrence, and the next one, two years hence, will drift their way. The party seems to have forgotten the fact that for the first time in thirty years they hold the reins of government untrammelled, and that after two years of unlimited freedom, they are suddenly called to account.

It is safe to leave the democratic party, to work out its own destiny, and wisdom will dictate to the republican party the necessity of at once adopting a policy that shall harmonize and assimilate the new elements that have recently come into it.

The prohibition element that went out from the party and is slowly finding its way back, will demand some recognition, a demand which the party can well afford to consider. That the glaring evils of intemperance have so wrought upon the sensitive minds of these people that the question seems to them, the one of greatest national importance, is not at all strange. While many of their theories may be impractical, yet they are entertained by a class of men, whose moral character is above reproach, and whose judgment on other questions is usually sound. It was occasion for regret, when the prohibition party organized and withheld its support from republicanism.

It was impossible for the great national party to follow them, but it is possible for it to welcome them back with hearty good will, and an expressed desire to adjust as far as may be practicable the existing difference of opinion.

The populist party throughout the north and west, outside of the large cities was largely recruited from republican ranks. Minnesota, the Dakotas, Kansas and Nebraska and the Pacific states all had grievances of a local character that the republican party could not satisfy. The abnormal tide of immigration that filled up this section of the country where nature through drouth and other causes seemed to conspire against prosperity, produced an army of discouraged and dissatisfied people, who in desperation turned to the government with demands for relief and support. Through long suffering and oft-repeated misfortune, they were led to organize a party that should gain recognition, and secure much needed relief. The worst element in the large cities, led by designing politicians, allied themselves to this people's party, and the union presented one of the queerest freaks of political organization that the country has ever witnessed. That such a combination could not long endure was not a debatable question.

The republican party welcomes back the element that went out from it, believing that while the government is powerless to lead corporate aid, that with united effort, time and energy will overcome much that nature has neglected, and that it is possible to make even the arid districts, to bloom with prosperity.

The most critical contingency with

which the party has to deal, arises from the southern element, the independent voter, and the pronounced democrat who for the first time cast a republican vote. The hope of the party in the south is based on the fact that for the first time since a solid south was recognized, the ranks are broken, and the opportunity granted to demonstrate the advantages of northern enterprise. That good results will follow, is firmly believed, and under the influence of wise administration and more intimate relations, the barriers of prejudice will be broken down, and a new south, with higher aspirations and more extended ambitions will speedily follow.

The independent voter will tax the ingenuity of any party. He belongs by rights in the republican camp, and now that he has returned, an effort should be made to keep him in line. This element comprises some of the best men in the country; men who are well qualified to lead and govern. They are men who appreciate a sound businesslike administration of public affairs and have learned in the last two years that the probabilities of such an administration are infinitely greater with the republican party in power.

The straight democrat will doubtless return to the party of his first love, although there is no occasion for such a movement. The republican party will promise to use him well, and will endeavor to show him a better way to live, stay with us and we will do you good. It doesn't follow that because a man was born a sinner that he should always remain a sinner, and the birth mark is about the only excuse a man has for being a democrat in this enlightened age.

The Gazette believes that the republican party possesses the wisdom to so manage the affairs of government as to satisfy the reasonable demands of the many new friends that have rallied to its support.

Charleston News (Dem.): We cannot hope for any substantial or lasting victory for the democratic party so long as the party occupies so uncertain and dishonest a position on financial questions—so long as the solid south is arrayed on the side of cheap money. Will southern democrats profit by the lessons of Tuesday's election? We doubt it. There are too many scabs on the party in the south, too many cheats and swindlers in charge of the political machines, and the people are too ignorant or thoughtless or crazy to see clearly and think straight. There must be a decided change in southern sentiment and southern policies within the next two years, or we shall not see another democratic administration at Washington for a decade.

This discouraging outlook from a democratic standpoint in South Carolina is significant and expresses the sentiment of the party in a section of the country where the republican party never gained a political foothold.

It is possible that in the development of a new south under a broader and better civilization, that the calamity foreshadowed by the News, may prove a blessing in disguise.

An exchange in speaking of the doctrine of the populist party in Kansas, the hot bed of populism refers to Mrs. Lease, the great agitator in the following terms. That the criticism is just, will be generally conceded.

"As to Mrs. Lease, the chief calambowler, there is no reason why she should continue shrieking. She made her hay while the sun was shining and it is safely tucked away in the barn. She has lectured and screeched from Dan to Beersheba, accepting good 100-cent money for her public efforts, and not turned her pretty nose up at it either. She has deposited her earnings in the odious banks, after paying off outstanding mortgages with an honesty she has not pre-ched to her fool disciples. She should be contented. She is just twice as well off as she would have been had her policy been carried out. She should sing like a Miriam instead of howling around like a petticoated Jeremiah."

"I don't call this a shaking up at all," said the man with a damaged wart on his nose, as he climbed out of a car window in a late railroad smash up. "I was a democratic candidate for congress over in Wisconsin."

While the populists hold the balance of power in the next senate, the republicans will be able to organize, by the aid of Marvin Butler of North Carolina, who has declared his intention to vote with the republicans.

The Kansas City Times suggests that democracy is not yet quite sure whether it needs a doctor or a coroner. All doubt will be dispelled in 1896.

Dr. Pierce's Golden Medical Discovery is the world's most famous remedy for all diseases of the blood and skin.

BEGINNING EARLY is half the battle. Don't wait for your cough to run into Consumption. There's always danger of it. The germs or seeds of this disease are all around you. All that they want is an inactive liver and the scrofulous condition that follows it, to develop them.

You need Dr. Pierce's Golden Medical Discovery, now, to thoroughly purify your blood, build up sound, firm, honest flesh, and make every weak spot strong. It's a certain remedy for the earlier stages of Consumption.

Campbell, Ohio.
 Dr. R. V. Pierce: Dear Sir—Two of our best doctors pronounced my case consumption. I spent nearly \$300, and was no better. I concluded to try the "Golden Medical Discovery." I bought eight bottles, and I can now say with truth that I feel just as well today as I did at twenty-five, and can do just as good a day's work on the farm, although I had not done any work for several years. I give you all the thanks.

Truly, your friend,
 William Dulaney

MRS WATSON HURT BY A HARD FALL

SHE TIPPED OVER BACKWARD
FROM A BOX.

Shoulder Bone Was Broken Just Back of the Arm—Thanks for Donations for the Poor—Charles Montag Taken to the Hospital—City News.

Mrs. SAMUEL WATSON toppled over backwards while hanging the clothes on the line at her home, 354 South Jackson street, this morning, and as the result she is suffering the pains of a broken shoulder. She was standing on a box in order to reach the line, when she fell backwards, striking heavily on her shoulders, breaking the left bone just back of the arm. Dr. Woods is attending her.

Miss MARY KIMBALL, the city missionary wishes to thank the De Forest bakery for two bushel baskets full of fine bread; the Caledonian society, who through John Galletly gave \$10 to be used in relief work; the Singer Company for a sewing machine; F. H. Baack and T. J. Ziegler for clothing; the Richardson Shoe Company for footwear and Mrs. J. H. Dower for clothing. If persons who have clothing or religious or other reading matter that they will donate to the poor will address a postal card to her at 106 South Jackson street, the donations will be called for.

A VERY large audience laughed for nearly three hours last evening at the funny scenes, situations and specialties in the "The Dazzler," at Harmanus Bleeker Hall. Miss Lottie Burke, the little soubrette star; Mr. Findley, comedian; shapely Miss Alice Whitney in songs; Mr. Guttersen in "Sweet Marie," and the Adams Sisters, dancers, all made pronounced hits. The hearty laughter came when little three-foot comedian Mr. Healey commenced his work, and only ended when the audience laughed itself tired and the curtain went down at the end of the performance.—Albany Evening Journal, March 9, 1894.

THE business the Park is enjoying is simply phenomenal. Every night every room in the house is taken, and three times a day every seat around the festive board is occupied. To-morrow's dinner will be an elaborate one, such as can only be given by Mrs. Galbraith. "The best business in the history of the Park" is the way Mrs. Galbraith tells it.

THE apples we are offering for \$2.75 a barrel are direct from New York state, six different kinds. Spitzburgs and Kings are the best, but we charge no more for them than for Greenings, Spys, Gills Flowers or Baldwins. We have not the face to infringe on our patrons in that way. All go at \$2.75 a barrel. Dunn Bros.

A SUIT for \$5.00; one for \$6, another for \$7; an overcoat for \$3.00 and another for \$3.50; some more for \$6, and \$6.50 and \$7.50; children's cape ulsters for \$2.50 and handsome chinchilla overcoats for \$7.50, make it so anybody can have a new suit or overcoat. These prices are proof against all comers. T. J. Ziegler.

BORT, Bailey & Co.'s comparison is yesterday's issue between X. Y. Z. & Co. and themselves, has caused considerable comment. Some of the people had no idea so much could be saved by buying at Bort, Bailey & Co.'s. By X. Y. Z. we mean any dry goods house in Janesville. Bort, Bailey & Co.

IN looking over the large stocks of solid silverware in the city, we were very favorably impressed that none were any larger or better assorted than that of F. C. Cook & Co.'s. We also came to the conclusion that no one is underselling them. They have a large line of very handsome patterns.

DR. CORTELL, eye specialist of Chicago, will be in the city all of next week and will have his office at the Sutherland Sanitarium. He comes highly recommended. If you are afflicted with any disease of the eye or imperfect vision call and see him. Consultation free.

A NICE cozy home with good surroundings and easy chairs is very enjoyable. Anybody can have such now—a day, money or no money. Frank Kimball will sell you anything he has on credit, and for less than any other furniture house in the city can sell for cash.

WE will probably move in another week. We have lots of goods yet we don't want to move. Next week we will cut deeper and deeper, until every article we don't want is gone. Everything new and desirable bought within ninety days. Bort, Bailey & Co.

SPECIAL prices on washing machines, Universal clothes wringers, copper boilers, tin boilers, washboards, for Monday only, November 19, at the Holloway & Johnson bankrupt stock. See prices in another column. Lowell Hardware Co.

REGARDLESS of the great blowing being done by the dry goods merchants across the river, T. P. Burn's dry good store is crowded from one end of the day to the other. They believe in advertising, he believes in low prices.

ANYONE who doubts that Lowell can close out a stock of hardware quicker than any other man in this neck of the woods, can be relieved of their idea by going to the Holloway & Johnson bankrupt sale.

THE meetings at the Y. M. C. A. rooms Sunday afternoon are growing in interest, and a cordial invitation is extended to all men of every nationality and creed to be present. Sunday

WE have a lot more prices in to-day that should fill our store with eager buyers Monday. Only cash buyers like ourselves can purchase goods so as to sell at any such prices and make a small profit. Brown Bros. & Lincoln.

THE funeral of little Ruth Briggs, daughter of Mr. and Mrs. W. M. Briggs, whose death was announced last evening, will be held from St. Patrick's church at 2 o'clock Sunday afternoon.

THE great sale of clothing at the corner of Milwaukee and Main is saving the people of Janesville and Rock county thousands of dollars. See prices in large ad. T. J. Ziegler.

WHEN buying perfume why not get the best. It costs no more and is far superior in quality and fragrance. Hudnut of New York makes them and Prentice and Evenson are sole agents.

ROSEY now sports a handsome new diamond, but he can easily do this when one takes into consideration the big trade he is enjoying especially in chinchilla overcoats at \$5.50 each.

PERHAPS we are foolish but then we have certain points we want to reach by January 1, therefore we are selling many articles of clothing for 30 cents on the dollar. T. J. Ziegler.

THERE is not a sweeter toned instrument as an accompaniment to the voice than the mandolin-guitar. S. C. Burnham & Co., the jewelers and music dealers are selling lots of them.

IF you enjoy a good dance attend the Trades Union ball Thanksgiving night. Smith's orchestra of six pieces will furnish the inspiration and a jolly good time is assured.

WE had an extra cashier and three extra clerks today and they could not take care of the people. Wonder what the people think of us now. Lowell Hardware Co.

EIGHT salesmen and two cashiers could not wait on the people at the bankrupt sale of Holloway & Johnson's today. Special sale Monday. Lowell Hardware Co.

COME in, make your selection, if you haven't the money, no difference, we will sell just as cheap as for cash. We want to dispose of our large stock. Frank D. Kimball.

WE lead the procession on rubbers. We made preparations for it. We bought before the advance and that's why we sell so cheap. Brown Bros. & Lincoln.

LADIES who are judges for fine perfume pronounce Hudnut's far superior to any other in delicacy and lasting qualities. Prentice & Evenson, sole agents.

YOU can consult O. D. Lincoln, the recognized M. D., on "footfitting" in this section, free. He will give you a remedy for cold feet. Brown Bros. & Lincoln.

CRIME OF A SAVAGE LAID TO HITZMAN

CENTER MAN IS CHARGED
WITH INCEST.

Fifteen-Year-Old Niece Was His Alleged Victim, and He Excuses Himself by Claiming That They Were Married Last May—Ceremony Would Be Illegal.

Charged with committing an exceedingly unnatural crime, Fred Hitzman of the town of Center, paces a cell in the county jail. Incest is the entry on the municipal court books, and the fifteen year old daughter of Hitzman's brother is the victim. The father came to Janesville some days ago and swore out the warrant for Hitzman's arrest but the latter got wind of it and departed for parts unknown. Constable Wallace Cochrane, who always manages to get the person he goes after, was given the warrant. Hitzman had been located at Milton Junction so the wily constable hid himself to that town but found no Hitzman. Finally he located him in Boscobel and put him under arrest. Hitzman was brought back to Janesville to-day, and when he was brought into court this morning he was sent to jail in default of \$500 bail, to await an examination set for Monday morning before Judge Phelps.

While he does not deny living with the girl, he justifies himself by saying that they were married last May, and that he did not know there was anything wrong about it. The marriage, however, if it had been solemnized as he says, would be illegal, as the laws of Wisconsin do not permit the marriage of people so nearly related, and would be no defense. Center people were quite wrought up over the affair.

ANSWERED THE LAST CALL.

Mrs. Hulda Armstrong.

Mrs. Hulda Armstrong died at the home of her son, Dr. L. G. Armstrong in Boscobel Thursday evening, November 15, at the advanced age of eighty-five years. Mrs. Armstrong was one of the early settlers of the state. For the past thirty years she lived in Brodhead. She was a consistent member of the Presbyterian church and exemplified the religion that she professed in a life that won the confidence of all who knew her. Her daughter, Mrs. H. Ames, of South Bluff street, and her son at Boscobel are the only surviving relatives.

The remains arrived at 11 o'clock this morning and were taken to the home of Mrs. Ames, where they will remain until Monday morning, when they will be taken to Brodhead for burial by the side of her husband, the late Robert Armstrong.

MEANT FOR MARRIAGE.

"Did your sister enjoy the serenade last night?" Little Jimmy—Yes; she and Mr. Blinks laughed at everything you sang.

BRIEF LOCAL CHIPS.

A WELL known lady called for five articles at the Holloway & Johnson closing out sale yesterday and was informed by Mr. Lowell that they were all gone. In the course of conversation Mr. Lowell made the remark "that she was too slow, she should have come sooner. She replied, "that is no doubt true, but there's nothing slow about you." She hit the nail squarely on the head. There is nothing slow about Lowell, the "buster and slayer of high prices." His competitors will even testify to this.

LOWELL HARDWARE CO.

DR. WILLARD MCCHEENEY was attacked by a vicious dog on Prospect avenue this morning and in the fracas a good pair of pantaloons was badly demolished. The dog has long since gained a reputation in the neighborhood and an effort will be made to induce him to confine his playfulness to the back yard.

The Widow's Gratitude.

Not far away the sacred Ganges flowed silently between its green banks. The widow, according to the inexorable usage of the land, was about to be entombed with her deceased spouse.

A glad smile illumined her face as they laid her beside the lifeless form of her husband and scattered cold clouds of clay upon her.

"I just thank my stars," she murmured, "that I wasn't born in a country where they have to wear black, whether it is becoming or not."

Presently she was seen no more, and above her head there grew a sweet floweret which flourished and gave fragrance to the air.—Puck.

A Strategist.

Van Cortlandt Park—I have just bought my wife a diamond ring for two hundred and fifty dollars.

Murray Hill—I had no idea you were so extravagant.

"Extravagant! My dear fellow, I will save lots of money. That's why I bought it."

"I don't catch on."

"Why, man alive, I'll save five hundred dollars on kid gloves."—Alex Sweet, in Texas Siftings.

Cheerful.

"Where are you going, my pretty maid?" "I'm going a-chestnutting, sir," she said.

"May I go with you, my pretty maid?" "I prefer the kind in the trees," she said.

A Brave Defender.

Mrs. Watts—It seems to me that you paid a good deal more attention to that hateful Widow Finns last night than was necessary. Everyone in the room noticed it.

Mr. Watts—My dear, I saw that there were at least a dozen unmarried men in the assemblage, and I wanted to protect them.—Indianapolis Journal.

End of a Serial.

"Yielding to repeated solicitations on the part of our readers, we herewith permit the hero of our romance to tie the nuptial knot with his charming Lucie, instead of letting her enter a convent and letting him send a bullet through his head, as was the author's intention. —The Editor."—Berliner Borsen-Zeitung.

Y. M. C. A.'S BUILDING NEARLY PAID FOR

BUT \$3,600 IS NOT YET AC-
COUNTED FOR.

The Managers Are Very Anxious To Get the Amount Together, as It Would Make Complete the Provisions of the \$5,000 Agreement—\$300 Was Raised To-day.

Janesville's fine Y. M. C. A. building and its furnishings are all but paid for and the workers are joyous. \$23,000 will be the total cost. \$19,400 has been paid or is in sight.

\$3,600 is wanted to complete the whole thing. \$300 was raised yesterday, one person giving \$250 and two others \$25 each.

That is the way it stands now but there is a condition confronting the managers.

Some time ago Judge Sale agreed to give \$500 providing that nine others would do so. Seven have complied and three more will come in. The condition is that the building must be completed and out of debt to get the money. Therefore they are anxious to raise the \$3,600. This would complete the building free of debt and furnish it with light, water, heating and all fixtures. The managers now feel much encouraged and are redoubling their efforts to reach the goal. Nothing helps a town more than a well organized and effective Young Men's Christian Association. Everybody should turn in and help.

Second of the Series.

Yourselves and ladies are cordially invited to attend a series of parties given by the Concordia society during the coming season. The second party will be given Tuesday evening, November 27. Smith's full orchestra. That's the way the invitations read. The Concordia people always have a grand time at their balls, and all who are fortunate enough to get an invitation to this one will be entertained in a way only becoming the Concordia society.

TRUTH IS MIGHTY.

Moses Gage Shirley, The Best Poet, Cured by Dr. Greene's Nervura Blood and Nerve Remedy. Words That Show a Poet Can on Occasions Use Vigorous Prose.

MOSES GAGE SHIRLEY, THE POET.

That Moses Gage Shirley, of Goffstown, N. H., is a popular poet, the world knows. That he is a great poet is evidenced by the fact that fact that he is endorsed by that master of poets, James Whitcomb Riley, and such eminent men as Governor William E. Russell of Massachusetts, and Mayor Knowlton of Manchester, New Hampshire. His book "Every-day Rhymes" has made him famous.

The poet personally is a genial gentleman who talked interestingly to the writer concerning himself. "I am very well indeed, now," he said, "but some time ago I was troubled badly with weak nerves and kidney and liver complaint. I took that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy, and it completely cured me.

"A nerve-strengthening and blood-purifier it is unequalled, and richly merits its great success as the grandest of medicines.

"I advise everybody ailing to use it, and I take every opportunity to recommend it. It will certainly cure."

Our great writers, our illustrious statesmen, our most eminent physicians and best known society people, use and recommend this grandest of medicines, Dr. Greene's Nervura blood and nerve remedy. It occupies a position among the sick and ailing far above any other remedy ever discovered. No other remedy cures like it, no other

medicine begins to have such a long array of wonderful cures. Day after day prominent and well known people publish their testimonials, and recommend this remedy because it cured them and they desire to point out the road to health to others who may be suffering from nerve weakness, overworked brains, tired-out bodies, nervous debility, insomnia, dyspepsia, constipation, rheumatism, or some other affection which causes nervousness, weakness and prostration.

Prominent persons, whom everybody knows, would not thus give their names to the public and advise people to use Dr. Greene's Nervura blood and nerve remedy if they did not know from their own experience that the medicine cured, and that it will cure others if they use it. We can only say, try it and prove for yourself that it will do just what these well-known people say it will.

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases Dr. Greene, of 35 West 11th St., New York City. If you take this medicine you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case freely and without charge. This is a guarantee that this remedy will cure, possessed by no other medicine in the world.

often than his neighbors; but a policeman, as the embodiment of all that is orderly and conventional, is antipathetic to him. As for hedgehogs, they are cooked and eaten by the Romans, who are wonderfully clever at tracking and capturing these very shy animals. The other day one of my gipsy friends informed me that as a cure for deafness there was nothing to equal a little melted hedgehog's fat applied to the ear.

The following few words and phrases spelt as phonetically as possible, may be useful to anyone paying his first visit to a Roman camp. By adroitly introducing them into his conversation, the visitor may succeed in avoiding the appearance of inexperience and greenness which might tempt his host to receive him as an inquisitive Gentile rather than as a future Roman ally.

A BASEBALL UMPIRE.

Needed Qualities to Enter the Professional Field.

A well-known writer on sporting matters thus writes to a young man who asked how to fit himself for a baseball umpire:

"If you have the requisite physical make-up, strength, vitality, force; if you have an eye that can see as well behind you as before you, an ear that can distinguish the slightest inflection of tone, and is not shocked at the most heathenish howl; if you have a voice that can be simmered down to give the soft answer that turneth away wrath, and can at other times ring out like tones of thunder, enough to fill your hearers with dismay; if you have the faith of the patriarch Abraham, the missionary spirit of St. Paul, the generalship of Napoleon, the patience of Job, the philanthropy of a Howard, and the courage of a lion-hunter, if you have moreover that charity which hopeth all things, endureth all things, that charity which is not puffed up, that thinketh no evil, is never tired of well doing, and doth not behave unseemly, why you may try it. I say, try it, for it is by no means certain that you will succeed then."

What Will the Girls Do?

Holley Williams, of Richmond, Va., was fined \$2.50 a few days ago for unlawfully loitering about the Woman's college and conversing with the school girls. Williams was passing the institution when he saw a young lady inmate of the institute, with whom he is well acquainted, on the lawn in front of the building. He dallied sufficiently long to pass a compliment and attract the attention of an officer, who arrested him. Policemen now keep watch on all schools that young ladies attend, and they find that old men give them more trouble than the boys.

Mikado—Hold on! Hold on! Why don't you stand and fight like a man? Li Hung—Heh! Me no recognize you. Mikado—You won't? Li Hung—No; you not in my class! Mikado—But I can whip you, land and sea, horse, foot, stinkpots and dragons—Li Hung—Me no recognize! Go makee leco! Go whippe Sam Yankee, John Bull, Bill Kaiser, then come me. You not in my class!

And Li Hung defiantly fled.

One of the ways in which the electric light is a benefit is that it lessens the breakage of street lamps, the bill for which amounts to thousands of dollars every year. The number of lamps broken in Boston during a period of ten years, when the city was almost entirely lighted by gas and oil, amounted to 124,994, and a good proportion was broken simply through mischief.

We Pay \$10 Each for Ideas

We need TWENTY or MORE original and striking designs for Newspaper Advertisements of **SAFETY CLASP SOAP**. The manufacturer, **W. K. Fairbank Company**, will pay TEN DOLLARS EACH for approved drawings with appropriate reading; or \$5 each for designs or reading matter only. This offer is open to all. The competition will close December 1. As soon as possible after that date we will pay for accepted designs and return the others. Remember, for complete, acceptable advertisements we pay.

Directions.—Make drawings with black ink on heavy white paper, or card board. Do the work in outline. Elaborate shading will not print well. Space in papers will be four inches square. Draw to larger scale if you prefer, but have design square. The idea is most important. If that is good we can have it redrawn and still give you credit. Avoid poetry. Get up an ad. that would make you say the article. Points.—Santa Claus is a pure, high-grade Soap—made for laundry and general household use—a favorite wherever known. Merits generous praise. VARIOUS NOTES.

Modes For House and Street—Velveteen Will Be Much Worn.

Velours du nord is the principal material employed in the new mantles and coats, watered and plain velvets being also used. Handsome jet passementerie, with ostrich tip or fur borderings, is the chief trimming.

Velveteen will be much worn this winter, and many of the new models in this material are excessively pretty. Claret, cerise, red, purple, blue, green and tabac brown are the most fashionable colors.

Black rep will be a fashionable material for plain, smart walking dresses, but requires to be enriched with fur, jet or steel.

VISITING TOILET.

Day gowns are plain as to skirt, and the tailor made styles are popular.

Eighteen hundred and forty styles seem destined to prevail this season. Ample skirt bodices gathered into a belt, with a buckle, balloon sleeves and berthas, are the characteristics of the mode. Sometimes the belt has long ends, but these are usually attached to the skirt by a chon or a motif of passementerie. Passementerie and bows or chous of ribbon, velvet or even the same goods as the gown are the favored trimming.

Buttons are the novelty of the moment. For jackets buttons of ivory beautifully carved are employed by those persons who can afford it, while pearl, silver and cut jet buttons form a part of the trimming of many gowns.

Jet is very much favored, and enormous jet cabochons are employed for various purposes on many winter costumes.

Matinee jackets are elaborate in style and are made of soft silk or crepon of bright or delicate colors. Berthas, epaulets and boleros of guipure or embroidery are employed to trim them, with knots and chous of ribbon.

Light gloves are worn with visiting toilets, suede gloves in straw color being considered correct, or glace kid in pearl gray or white.

An illustration is given of an out of door toilet of Russian green granite silk. The skirt is laid in two box plaits on each side and three in the back. Two bands of green velvet run across the front of the skirt under the four plaits. The round bodice has two plaits back and front and has also a velvet yoke round behind and square before. A wide collar follows the shape of the yoke at the back, but falls straight over the shoulders in front. A band of skunk fur trims the wide collar and borders the velvet standing collar. The velvet belt closes in front under a windmill bow. The gigot sleeves are plain.

STYLES IN FURS.

Wraps and Gowns Profusely Trimmed With Fur—Boas Still Worn.

Sealskin jackets are this season cut about three-quarter length and have either high or turndown collars, full, drooping sleeves and are mostly double breasted. The skirts are full. Cloth coats are very like those of last year in their chief outlines. Melton cloths with finely speckled surfaces are more patronized than the

STREET COSTUME.

plain faced cloths ruling in 1892. They are somewhat longer, fit more loosely in front and tighter in the back and have sleeves of less huge proportions. Fur is more used than ever for trimming. Sable, of course, holds its own. Caracule is very fashionable and to a great extent replacing astrakhan. Chinchilla is again in much favor. Blue fox, Tibet goat, stone and baum marten, skunk, bear, opossum, muskrat and black fox are all greatly used. Ermine, notwithstanding the effort to revive it, is little seen.

Long feather boas and the little animal boas or stoles, with head and tail at tachment, are still worn.

Certain out of door toilets are made in such a way that a wrap may be dispensed with, although in this season of capes an elaborate bodice does not preclude the wearing of an outer garment. The costume illustrated is of lilac cloth combined with fancy ribbed goods of the same color. The foot of the cloth skirt is trimmed with two bands of marabout. A straight drape, scalloped around the edge, falls over the hips, while in front is a short embroidered tablier of the ribbed goods. The cloth bodice, embroidered in corselet shape, has an embroidered ribbed vest bordered with fur. The tight, ribbed sleeves have a puff of the same goods from shoulder to elbow and above that a scalloped cloth cap. Scallop cloth cuffs finish the sleeves at the wrist.

WHAT THEY SAY.

Conversation of Business Men When They Meet.

It would puzzle a stranger to judge of the conversational abilities of Chicago men by the chat which usually follows a meeting of friends on the street, says the Record. This is one chat taken verbatim:

"Hello, old man."
"Hello, yourself. How's tricks?"
"Oh! so so; can't kick. How's things coming with you?"

"Right along. Haven't seen you for a month. How are you taking it?"
"Easy. Anything new with you?"

"Not a thing. Same old song. Well, so long."

"So long. Take care of yourself."
One of the men was a bank president, the other a wholesale dry goods merchant.

A board of trade leader met a prominent insurance manager. Both are well-read men, of wide information and are accounted good after-dinner speakers. It was:

"Hello, old man!"

"Hello, Billy. How's tricks?"

"Nothing extra, about the same. How's the world using you?"

"Can't kick in these times. How's your conduct?"

"Same as usual. Anything new up your way?"

"Not a thing; same old song. Going my way?"

"No; so long."

"Well, so long. Look out for yourself."

A Dearborn street lawyer met a La Salle street lawyer. They are high in legal circles, have a fine standing in court and are cultivated, refined gentlemen. It was:

"Hello, old man."

"Why, hello. How are you?"

"First-class. How's your corporosity?"

"Haven't a word to say. Business good?"

"Some coming in; nothing to brag of. How's the world using you?"

"Can't complain. Don't see much of you. What's new with you?"

"Nothing; same thing as usual. How's it coming with you?"

"So, so; getting a living. Well, so long, old man. I'll see you later."

"So long. Take care of yourself."

"Sure."

Horsford's Baking Powder excels all others in healthful quality and baking strength. A wonderful invention.

In Baking Powders
"Royal" Leads.

As the result of my tests, I find the **ROYAL BAKING POWDER** superior to all the others in every respect. It is entirely free from all adulteration and unwholesome impurity, and in baking it gives off a greater volume of leavening gas than any other powder. *It is therefore not only the purest, but also the strongest powder with which I am acquainted.*

COLD FEET!

Perhaps you are not quite willing to harness your feet into rubbers. Still, isn't the old adage to "keep the head cool and the feet dry" good horse sense; and aren't the twin propositions conservators to good health?
